

HEALTH AND SAFETY POLICY

The senior Management of R2 Hotels establishes the commitment to provide safe and healthy working conditions for our workers, in order to raise the levels of safety, health and well-being of the organisation itself through the integration of the prevention of injuries and deterioration of health into the company culture.

Responsibility for the management of Occupational Health and Safety falls upon everyone, assuming the full commitment to incorporate preventive management into our daily activities.

Continuous improvement in preventive action can only be achieved through information, consultation and participation of staff at all levels of the organisation.

Measures to meet our goals:

Guarantee workers training in occupational health and safety matters, appropriate for the proper performance of their tasks, as well as promoting awareness and education.

Provide safe and healthy working conditions for the prevention of injuries and deterioration of health related to the work carried out.

Guarantee general information to workers, as well as direct information about the specific risks affecting their respective positions or functions and the applicable prevention measures, facilitating their consultation.

Verify compliance with applicable legal requirements, as well as those of the organisation itself, that affect each activity, adopting best practices.

Periodically review the occupational health and safety system appropriate to our organisation, adopting measures that allow for the continuous improvement of its effectiveness.
